

Republic of the Philippines
Emergency 911 Commission
Emergency 911 National Office

ADVISORY

**TO : EMERGENCY 911 NATIONAL OFFICE AND
NATIONAL CALL CENTER PERSONNEL**

**SUBJECT : COVID MEASURES TO FIGHT COVID-19 IN OUR HOMES,
COMMUNITIES AND WORKPLACES**

DATE : March 29, 2020

In the interest of public service, all Emergency 911 National Office and National Call Center personnel are hereby encouraged to observe the following **COVID Measures** as our collective effort and contribution to fight COVID-19:

Commitment to a Healthy Lifestyle

This commitment is our pledge to improve our health condition by adhering to proper sanitation and hygiene. By practicing healthy habits, we can continuously perform our frontline tasks.

Obedience to all Legal Issuances and Guidelines of the Authorities

The government is always there to safeguard our health and well-being. Obedience is a sign of respect for authority. We obey because we do not want harm to befall us and our families and to not suffer hardships due to COVID-19 infection.

Vigilance in our Homes, Communities and Workplaces

We have learned that "Eternal Vigilance is the Price of Freedom". Vigilance is being alert and watchful against an invisible enemy. We can only be free to move about and do our normal routine when we are COVID-19 free. Maintain social/physical distancing and be mindful of preventing the main mode of COVID-19 transmission.

Inspiration Drawn from our Frontliners Gives Us Hope!

They are our nameless, faceless doctors, nurses, medical and hospital staff, policemen, soldiers, teachers, drivers, volunteers, barangay-health workers, telecommunicators, EMT and EMS responders, firefighters, ordinary folks and the parents who I collectively call COVID Warriors. They are our source of inspiration. Their acts of courage and heroism inspire us to stay alive. They are like the fresh air we draw into our lungs. Let us not fail them by being neglectful of our own roles.

Discipline for all of us

Discipline is when we educate ourselves to practice self-control. It is an act of following the prescribed conduct or acceptable pattern of behavior so that a state of order and obedience can exist in our communities or barangays. It takes discipline to be committed, to be obedient, to be vigilant and to inspire others to emulate us.

These are the times for reflection and genuflection. We fight COVID-19, an unseen enemy from within our body, with our more potent COVID measures.

We, the PEOPLE, must fight COVID-19 as one and heal as one!

With the grace and mercy of our Almighty Father, we will overcome this dreaded and wicked disease of the century!

God bless the Filipinos!

God bless the Philippines!

DIOSDADO T. VALEROSO
Executive Director
